Series 707- Special Athletic Glove

The special athletic glove is catered for athletes in all sports. It can adjust to conform to there hand through a hand tensioner dialer. The glove can assist with opening and closing the hand and grappling objects.

It has a special thin rubber for grip and special foam to protect the hand, the glove also protects the hand from injury by the tensioner strings that stops the fingers from being over extended that might cause an injury.

The glove will also have an oil capability that will fluctuate wherever an anticipated injury may occur to dissipate the impact, lowering the risk of injury to the hand.
